PROFESSIONAL SUMMARY

Detail-oriented and performance-driven Software Engineer with 3+ years of experience in building robust, scalable, and secure web applications using PHP, Laravel and MySQL. Proven ability to lead cross-functional teams, develop backend application and design RESTful APIs. Strong understanding of modern backend architecture, testing, and cloud platforms. Committed to writing clean, maintainable code following industry best practices.

TECHNICAL SKILLS

- **Languages:** PHP, HTML5, CSS3, Python, JavaScript
- **Frameworks:** Laravel, Django, RESTful API, Bootstrap
- **Databases :** MySQL, Microsoft SQL Server
- **Tools:** Git, GitLab, GitHub, Postman, Jira, MS office suits such as Excel, Word, PowerPoint
- **Platform:** AWS
- **Practices:** OOP, MVC, Agile development, DevOps, Unit Testing, API design, API Documentation

SOFT SKILLS

Communication skill | Interpersonal skill | Time management | Attention to detail | Problem solving skill | Decision-making skills | Team Player | Leadership Qualities | Self motivated | Honest | Punctual | Eager to learn new techniques | Hardworking | Customer oriented | Result Driven

PROFESSIONAL EXPERIENCE

Software Engineer

February 2021 –July 2024

Wappzo Infotech Pvt. Ltd. - India

- Developed and maintained scalable backend services using PHP and Laravel for enterprise-level applications.
- Experienced in collaborating with cross-functional teams to deliver complex projects on time.
- Designed and optimized MySQL schemas and queries, improving data retrieval performance.
- Implemented RESTful APIs and authentication systems using OAuth2 and JWT.
- Managed AWS deployment environments.
- Participated in Agile development and code reviews, promoting quality and teamwork.
- Experienced with working on more than 12+ projects.

PROJECTS

Name: Hinal Patel

Mobile: +1(365)-866-0673

Brampton, ON

Online Live Learning - Online learning platform

- Developed and maintained the backend of an online live learning web application using Laravel and MySQL.
- Participated in requirement gathering and lead team
- Built secure user authentication, session management and integrated course scheduling features.
- Designed and optimized database models for efficient user data handling and performance.
- Collaborated with front-end developers to ensure seamless integration and user experience.
- Implemented API endpoints and performed debugging and testing to ensure reliability.
- Used Git for version control and collaborated with remote teams using GitLab.
- Integrated third-party API such as Zoom. Also implemented Razorpay for processing payment.
- Utilized Postman for API testing and took part in continuous integration and continuous development.

Go Thrive Go – Platform for trauma survivors

- Built a Laravel web app with MySQL using MVC and clean code principles.
- Collaborated with UI/UX, frontend, and stakeholders on requirements and sprints.
- Designed efficient database schemas and integrated Stripe with webhooks and subscriptions.
- Optimized complex SQL queries and database structures to enhance application performance and reduce load times.
- Developed and documented scalable RESTful APIs with versioning.
- Performed unit/integration testing, debugging, and performance tuning.
- Used GitLab for CI/CD, version control, and Agile-based code collaboration.
- Ensured secure, standards-compliant code through peer reviews.

EDUCATION

Masters's – Computer Science

Algoma University, ON, Canada

Sep. 2024 – Expected in Aug. 2025

Bachelor's – Computer Engineering

SSAIET, India

9/10 CGPA

2016 - 2020

CERTIFICATES, TRAININGS & PROJECTS

- Got Employee of the Year award at Wappzo infotech Pvt. Ltd.
- Completed 'Project Management Foundations' Course on LinkedIn Learning.
- Completed 'Getting Started with AWS S3' course by AWS training and certification.
- Completed project 'Customer Churn prediction in telecom' using ML.
